

Dear Mark,

1-13-2020

We want you to know how well J-816 that was purchased 12-29-18 is working out for us. We still use him with heifers and have had zero calving problems and many calves. He is so docile and comes running to the cube buggy. We really enjoy him and he is just what two old people need. You helped us find the right bull.

Thanks!

Joyce & Paul Smith
